Knoxville, Iowa.—"I suffered with

glad to say that my medicines and kind
letters of directions have done more
for me than anything else and I had the best phys-

CHALLENGE FROM D. F. DAVIS

Offers to Refund Money if Dr. Howard's
Specific Will Not Cure Any Case
of Constipation or Dyspepsia.

D. F. Davis is seeking the worst case
of dyspepsia or constipation in Barre or
vicinity, to test Dr. Howard's new spe-
cific for the cure of these diseases.

So confident is he that this remark-
able medicine will effect a lasting cure
in a short time, that he offers to refund
the money should it not be successful.

In order to secure the quickest possi-
ble introduction, D. F. Davis will sell a
regular fifty-cent package of this medi-
cine at half price, 25 cents.

This specific of Dr. Howard's will cure
sick headache, dizziness, constipation,
dyspepsia and all forms of malacia
and liver trouble. It does not simply
give relief for a time; it makes perma-
nent and complete cures.

It will regulate the bowels, tone up the
whole intestinal tract, give you an ap-
petite, make food taste good and digest
well, and increase vigor. Joy and happi-
ness will take the place of that "don't
care whether I live or die" feeling.

Take advantage of D. F. Davis' chal-
lenge and secure a bottle of Dr. Howard's
specific at half price, with his personal
guarantee to refund your money if it
does not help you.

"While these meetings are in the na-
ture of an experiment, we are convinced
they can be made of interest and value
to us all, and we count on your sup-
port. Programs will be mailed you later.

About the State

Daniel Austin of Pittsford, who is 94
years old, has taken out hunter's li-
cense at the town clerk's office there.

Patsy Gentili, a street laborer, who
had entrusted his savings of \$90 to
Beni Meno, a fellow workman in Har-
dwick, lost them when Meno skipped with
the money and some clothing and provisions.

That our foreign population has am-
bitious youths among it is evidenced by
a young Russian in Springfield, who
studies telegraphy in the forenoon,
works in a store in the afternoon and
is an instructor in an evening school.

B. F. Groat and three other men from
Derby went for an auto ride Sunday,
October 9. When it became dark and they
attempted to light the lamps, in some
way the machine caught fire and only a
small part of it was saved. The accident
happened four miles from home.

William Hartley of Springfield nearly
lost an eye Wednesday, when he was
hooked by a cow and her horn struck
his face just below his right eye, making
a serious wound, though it is thought
the sight will be saved. The horn of the
animal had been sawed off, which may
have saved his life.

George Lorette had one hand badly
crushed Friday at the trucking depart-
ment of the Howe scale works in Rut-
land. While reaching to adjust a belt,
he lost his balance and in endeavoring
to save himself, he thrust his left hand
into some machinery gear, crushing three
of his fingers.

An attempt was made to break into
the store of W. E. Fuller in North
Springfield last Monday, but nothing
seems to have been taken and the per-
sons were evidently frightened away.
This was the second attempt to break
into the store within a few weeks. The
same night, the grist mill and a black-
smith shop there were also entered.
From the former about 750 was taken
and some tools from the blacksmith shop.

AGRICULTURAL MEETINGS.
Montpelier Board of Trade Arranges to
Have Series.

The Montpelier board of trade has
sent out the following letter to the
masters of Vermont grange, patrons of
husbandry, signed by W. C. Colton for
the committee and F. E. Gleason, sec-
retary of the board:

"Dear Sir: Montpelier board of trade,
recognizing the common interest of the
people of Montpelier and surrounding
towns in the development of our agri-
cultural as well as manufacturing and
commercial resources, have arranged for
a series of agricultural meetings to be
held at Montpelier one afternoon during
each of the months, November, Decem-
ber, January and February.

"The board of trade assumes all the
expenses of these meetings and extends
to the members of your grange and
their friends a most cordial invitation
to attend. We earnestly desire the co-
operation of the grangers of the country
in making these meetings a success by
their attendance, participation in the
discussions and suggestions for future
meetings.

"We are assured of the interest and
hearty support of the state commissioner
of agriculture, also such assistance as
we may require from the department of
agriculture at Washington.

"Apple culture is the subject chosen
for the first meeting and the date, No-
vember 9. The program will be a prac-
tical one, with talks by men who are
making a success of apple raising in
Vermont. Among the speakers will be
Charles T. Holmes of Charlotte, who en-
joys the distinction of being the largest
producer in the state, and who is this
season sending to market 5,000 barrels
of apples.

"Another feature which we feel will
be of general interest is a brief report
at the meeting by some one from each
town in the county, as to present con-
dition of orchards and their production
of marketable fruit. We would ask you
to make this report, secure some one
to do so for your town, and notify the
secretary so the name may appear on the
program.

"While these meetings are in the na-
ture of an experiment, we are convinced
they can be made of interest and value
to us all, and we count on your sup-
port. Programs will be mailed you later.

"F. E. Gleason,
Secretary."

Clergyman's Son Cured of Tuberculosis

To neglect a cold, bronchitis, lung trou-
ble or Consumption is dangerous. We all
know how prone people are to deny they
have Consumption. It is a flattering dis-
ease, and the sufferer is filled with bright
ideas of escape from consumption by
its own denials—and then—take
Eckman's Alternative, because it is effec-
tive in Tuberculosis. No one need doubt
about it—there is plenty of evidence
from five witnesses. Investigate the
following:—

Ardena, N. Y.
Gentlemen: "Prior to Feb. 1905, I was
located in Rochester, N. Y., suffering
with LaGrippe, which developed into
Tuberculosis. My physician gave me one
month to live. I was having terrible
night sweats and mid-day chills and
losing weight rapidly, having gone from 155
to 125 lbs. I coughed and raised contin-
ually and became so weak that walking a
few feet exhausted me. On my return
home, my father physician gave me a
little encouragement. My father, who is a
clergyman, heard of Eckman's Alterna-
tive and induced me to take it. The
night sweats and chills disappeared, my
cough became easier and gradually dis-
appeared and in a few days I developed an
appetite, the first in months. I am
now in perfect health, back to 155 lbs. I
feel certain that I owe my life to Eck-
man's Alternative."

(Signed) E. H. COWLES.
Gentlemen: "I cannot find words to
express my appreciation of what your
remedy has done for my son. It changed
despair into hope within two weeks af-
ter he began taking it. He is now without
any doubt in my mind, it saved his life.
I wish to add my endorsement to
every word of his 'testimonial.'"

Citizens Who Have No Liberty.
The writer happened to be in Home-
stead, Pennsylvania, one Sunday morn-
ing in July and on the car to Pittsburg
sat down with a workman from the Car-
negie mills, who was covered from head
to foot with the oil and grime of the
work. He was asked if there had been
any reduction of Sunday work since the
order has been issued.

"Reduction be—!" he declared
explosively. "Why, I haven't had a
Sunday off in five years." Then he sud-
denly became very serious, and looking
fearfully around the car (steel workers
have learned by bitter experience that
the spies of the corporation are every-
where), bent down—he was over six
feet—and whispered in my ear. "This
morning I skipped off without saying a
word to the boss. I don't know what'll
happen, and I have a wife and five kids
at home. But I think I might have at
least one half-Sunday in five years, don't
you?" This last an almost pathetic ap-
peal.

Here was an American citizen who
had been working twelve hours a day,
seven days (eighty-four hours) a week
for five consecutive years. He was a
laborer in the blast furnace, and the
steel trust paid him, for his endless toil,
sixteen and a half cents an hour. He
wanted to spend the rest of that Sun-
day with his wife and children, but there
was very little doubt in my mind that
when he returned to work on Monday
morning, he would be promptly dis-
charged for quitting work without per-
mission on the day of rest.

In the latter part of January, 1910,
a machinist in shop No. 4 of the Bethle-
hem Steel company (the great rival of the
steel trust) at South Bethlehem,
Pennsylvania, remained away from his
job on Saturday in order to avoid the
possibility of being ordered to work on
the following Sunday. He was not
minded, you see, a seven-day man, but one
who formerly worked ten hours and twen-
ty-five minutes from Monday to Friday,
and two hours and twenty minutes on
Saturday. But he, in common with other
workmen of that shop, had been fre-
quently made to work over-time and
Sundays, and it was feared that these
encroachments might ultimately result
in the longest hours, i. e., twelve hours,
seven days a week, being made the uni-
form ones for the entire plant. From
"Seven-Day Slaves of Steel," in Tech-
nical World Magazine for November.
